COMMUNITY PUBLIC HEALTH STRATEGY 2009-2010

The following questions aimed to support you in completing your project description and workplan.

- *Is the project and adaptation of an existing program occurring in the French language?*
- *If the project is not offered in French by either a CSSS or a Society/Association (ie. Mental Health, Cancer etc...), are there activities in the application that help better implicate these partners?*
- *Are other partners such as the CSSS, Society/Association implicated in the development and design of this application?*
- *Are partners contribution financial/in-kind resources?*
- *Does the application touch a priority of the local public health plan (Plan d'action locale and/or the clinical projects from the CSSS)?*
- *Is there evidence that the health priority/project chosen, addresses a top priority of the population?*
